| 21世紀に向けてこれからの海洋開発 / 海洋工事技術委員会編集  21セイキ ニ ムケテ コレカラ ノ カイヨウ カイハツ                                                                                                                                      | 1988 | 4381020693 | 466-9-N    | 838   |
| 6,000 words : a supplement to Webster's third new international dictionary                                                                                                                         | 1976 | 0877790078 | ---        | 3893  |
| A bibliography of fishes / by Bashford Dean                                                                                                                                                        | 1962 |            | 487-5-D    | 3062  |
| A bibliography of fishes / by Bashford Dean                                                                                                                                                        | 1962 |            | 487-5-D    | 3063  |
| A bibliography of fishes / by Bashford Dean                                                                                                                                                        | 1962 |            | 487-5-D    | 3064  |
| A bibliography of the tunicata : 1469-1910 / by John Hopkinson                                                                                                                                     | 1913 |            | 484-94-H   | 2870  |
| A biology of Crustacea / by James Green                                                                                                                                                            | 1961 |            | 485-3-G    | 2912  |
| A biology of higher invertebrates / [by] W. D. Russell-Hunter                                                                                                                                      | 1969 |            | 483--R     | 2479  |
| A biology of lower invertebrates / [by] W. D. Russell-Hunter                                                                                                                                       | 1968 |            | 483--R     | 2480  |
| A catalogue of molluscan shells from Taiwan (Formosa), with descriptions of new species / by Tokubei Kuroda                                                                                        | 1941 |            | 484-2-K    | 2685  |
| A coastal marine ecosystem : simulation and analysis / J.N. Kremer, S.W. Nixon                                                                                                                     | 1978 | 3540083650 | 468-6-Kr   | 2017  |
| A commentary on "Polycladida of Japan", a paper by the late Dr. Kôjirô Katô published in 1944, with its reprint edition. / By Kôjirô Katô. ; Compiled and annot ated by Masaharu Kawakatsu.        | 1982 |            | 483-4-K    | 2622  |
| A comparative atlas of zooplankton : biological patterns in the oceans / S. van der Spoel and R.P. Heyman                                                                                          | 1983 | 0387125736 | 466-68-S   | 3412  |
| A Coral reef handbook : a guide to the fauna, flora and geology of Heron Island and adjacent reefs and cays                                                                                        | 1978 | 0909377030 | 466-63-G   | 188   |
| A Coral reef handbook : a guide to the geology, flora and fauna of the Great Barrier Reef / edited by Patricia Mather and Isobel Bennett                                                           | 1993 | 0949324477 | 466-6-M    | 577   |
| A course in invertebrate zoology : a guide to the dissection and comparative study of invertebrate animals / by Henry Sherring Pratt                                                               | 1915 |            | 483--P     | 2478  |
| A critique for ecology / Robert Henry Peters                                                                                                                                                       | 1991 | 0521395887 | 468--P     | 4022  |
| A dictionary of ecology, evolution, and systematics / R.J. Lincoln, G.A. Boxshall, P.F. Clark                                                                                                      | 1982 | 0521239575 | 460-3-L    | 851   |
| A dictionary of the environment / Michael Allaby                                                                                                                                                   | 1977 | 0333197542 | ---        | 3910  |
| A draft synopsis of the orders, families and genera of recent fishes and fish-like vertebrates / by the late J.R. Norman                                                                           | 1966 |            | 487-5-N    | 3022  |
| A field guide to giant clams of the Indo-Pacific / by Mei Lin Neo ; illustrated and designed by Adel Lee                                                                                           | 2023 |            | 484-24-N   | 4351  |
| A Field Guide to Molluscs of Northern Chile / Tom Ashton                                                                                                                                           | 2007 |            | 484-2-A    | 5253  |
| A field guide to Pacific coast shells : including shells of Hawaii and the Gulf of California / by Percy A. Morris                                                                                 | 1974 | 0395080290 | 484-2-M    | 5247  |
| A field guide to shells : Atlantic and Gulf coasts and the West Indies / R. Tucker Abbott and Percy A. Morris                                                                                      | 1995 | 0395697794 | 484-2-A    | 5249  |
| A field guide to the shells of the Atlantic and Gulf coasts and the West Indies / by Percy A. Morris                                                                                               | 1975 | 0395168090 | 484-2-M    | 5248  |
| A field-guide to the reef-building corals of the Indo-Pacific / Hans Ditlev                                                                                                                        | 1980 | 9062790143 | 483-36-D   | 4303  |
| A functional anatomy of invertebrates / V. Fretter, A. Graham                                                                                                                                      | 1976 | 0122675509 | 483-01-F   | 4013  |
| A functional biology of echinoderms / John Lawrence                                                                                                                                                | 1987 | 0709916426 | 484-8-L    | 459   |
| A functional biology of parasitism : ecological and evolutionary implications / Gerald W. Esch and Jacqueline C. Fernández                                                                         | 1993 | 0412399105 | 468-4-E    | 1160  |
| A general zoology of the invertebrates / by G.S. Carter ; foreword by Julian S. Huxley                                                                                                             | 1961 |            | 483-01-C   | 4165  |
| A glossary of botanic terms : with their derivation and accent / by Benjamin Daydon Jackson                                                                                                        | 1916 |            | 233--井狩文庫  | 5405  |
| A guide to marine life on South African shores / by J. H. Day                                                                                                                                      | 1969 |            | 466-8-D    | 1885  |
| A guide to marine life on South African shores / by J. H. Day                                                                                                                                      | 1969 |            | 466-8-D    | 1886  |
| A guide to modern biology : genetics, cells and systems / Eleanor Lawrence                                                                                                                         | 1989 | 0582442729 | ---        | 4302  |
| A guide to the coral reef life of Singapore / by Chou Loke Ming                                                                                                                                    | 1988 | 9810002556 | 466-63-M   | 286   |
| A history of biology : a general introduction to the study of living things / by Charles Singer                                                                                                    | 1950 |            | 402--S     | 4300  |
| A history of Infusoria, including the Desmidiaceae and Diatomaceae, British and Foreign / by A. Pritchard                                                                                          | 1861 |            | 321--井狩文庫  | 5446  |
| A history of the British hydroid zoophytes / by T. Hincks                                                                                                                                          | 1868 |            | 483-34-H   | 2572  |
| A history of the British hydroid zoophytes / by T. Hincks                                                                                                                                          | 1868 |            | 483-34-H   | 2573  |
| A history of the ecosystem concept in ecology : more than the sum of the parts / Frank Benjamin Golley                                                                                             | 1993 | 0300055463 | 468--G     | 4192  |
| A la découverte de l'océan / par Daniel Behrman                                                                                                                                                    | 1970 |            | 452--B     | 1410  |
| A laboratory manual of invertebrate zoology / by Gilman A. Drew                                                                                                                                    | 1920 |            | 483--D     | 2465  |
| A life of invertebrates / W. D. Russell-Hunter                                                                                                                                                     | 1979 | 0024046205 | 483-01-R   | 4095  |
| A listing of living mollusca / Assembled by Yoshihiro Goto and Guido T. Poppe                                                                                                                      | 1996 | 8886070233 | 484-2-G    | 5229  |
| A listing of living mollusca / Assembled by Yoshihiro Goto and Guido T. Poppe                                                                                                                      | 1996 | 8886070233 | 484-2-G    | 5230  |
| A listing of living mollusca / Assembled by Yoshihiro Goto and Guido T. Poppe                                                                                                                      | 1996 | 8886070233 | 484-2-G    | 5231  |
| A listing of living mollusca / Assembled by Yoshihiro Goto and Guido T. Poppe                                                                                                                      | 1996 | 8886070233 | 484-2-G    | 5228  |
| A look at wildlife of the Great Barrier Reef / Neville Coleman                                                                                                                                     | 1978 | 085835201X | 466-6-C    | 821   |
| A manual of sea water analysis : with special reference to the more common micronutrients and to particulate organic material / by J. D. H. Strickland and T. R. Parsons ; editor, J. C. Stevenson | 1965 |            | 452-3-St   | 1532  |
| A manual of the fresh-water algae in North Carolina / [by] L. A. Whitford and G. J. Schumacher                                                                                                     | 1969 |            | 471-8-W    | 2050  |
| A manual of zoology / by Richard Hertwig ; translated and edited by J.S. Kingsley                                                                                                                  | 1912 |            | 480--H     | 2186  |
| A monograph of the British Naked-Eyed Medusae, with figures of all the species / by Edward Forbes                                                                                                  | 1948 |            | 483-3-大型   | 2543  |
| A monograph of the British nudibranchiate Mollusca / by Joshua Alder and Albany Hancock                                                                                                            | 1910 |            | 484-26-大型  | 2737  |
| A monograph of the British Spongiadæ                                                                                                                                                               | 1874 |            | 483-2-B    | 2519  |
| A monograph of the British Spongiadæ                                                                                                                                                               | 1882 |            | 483-2-B    | 2520  |
| A monograph of the dibranchiate cephalopods of the Japanese and adjacent waters / by Madoka Sasaki                                                                                                 | 1929 |            | 484-27-S   | 2779  |
| A monograph of the foraminifera of the North Pacific Ocean / by Joseph Augustine Cushman                                                                                                           | 1970 |            | 483-14-C   | 2506  |
| A monograph of the foraminifera of the North Pacific Ocean / by Joseph Augustine Cushman                                                                                                           | 1970 |            | 483-14-C   | 2507  |
| A monograph of the foraminifera of the North Pacific Ocean / by Joseph Augustine Cushman                                                                                                           | 1970 |            | 186--井狩文庫  | 5332  |
| A monograph of the free and semi-parasitic Copepoda of the British Islands / G. Stewardson Brady                                                                                                   | 1878 |            | 485-3-B    | 2894  |
| A monograph of the free and semi-parasitic Copepoda of the British Islands / G. Stewardson Brady                                                                                                   | 1880 |            | 485-3-B    | 2893  |
| A monograph of the free and semi-parasitic Copepoda of the British Islands / G. Stewardson Brady                                                                                                   | 1880 |            | 485-3-B    | 2895  |
| A Monograph of the genus Alaria / by K. Yendo                                                                                                                                                      | 1919 |            | 353--井狩文庫  | 5475  |
| A monograph of the horny sponges / by Robert von Lendenfeld                                                                                                                                        | 1889 |            | 483-2-L    | 2524  |

| A monograph on polyclad Turbellaria / Stephen Prudhoe                                                                                                                                                                                                | 1985      | 0198585187 | 483-4-P    | 211   |
| A monograph on the isopods of North America / by Harriet Richardson                                                                                                                                                                                  | 1972      |            | 485-3-R    | 2947  |
| A monograph on the Polychaeta of Southern Africa / by J.H. Day                                                                                                                                                                                       | 1967      |            | 483-84-D   | 2640  |
| A monograph on the Polychaeta of Southern Africa / by J.H. Day                                                                                                                                                                                       | 1967      |            | 483-84-D   | 2641  |
| A monograph on the sub-class Cirripedia : with figures of all the species / by Charles Darwin                                                                                                                                                        | 1851      |            | ---内海文庫    | 4510  |
| A natural history of Inhaca Island, Moçambique / edited by William Macnae and Margaret Kalk ; with the collaboration of B.I. Balinsky ... [et al]                                                                                                    | 1958      |            | 290-M      | 1341  |
| A new approach to the phylogenetic order in nature / Peter Ax                                                                                                                                                                                        | 1996      | 3540608036 | 483-A      | 362   |
| A new German and English dictionary : compiled from the best authorities in both languages                                                                                                                                                           | 1909      |            | ---        | 3884  |
| A partial bibliography of the Indian Ocean                                                                                                                                                                                                           | 1962      |            | 452-24-W   | 1529  |
| A photographic atlas of shark anatomy : the gross morphology of Squalus acanthias / Carl Gans, Thomas S. Parsons                                                                                                                                     | 1964      |            | 487-51-G   | 3101  |
| A propos des siphonophores / par Eugène Leloup                                                                                                                                                                                                       | 1954      |            | ---川村文庫    | 4659  |
| A quantitative study of benthic infauna in Puget Sound, Washington, USA, in 1963-1964 / With a section on polychaetes by Karl Banse, Katharine D. Hobson and Frederic H. Nichols                                                                     | 1968      |            | 466-74-L   | 1879  |
| A quantitative study of benthic infauna in Puget Sound, Washington, USA, in 1963-1964 / With a section on polychaetes by Karl Banse, Katharine D. Hobson and Frederic H. Nichols                                                                     | 1968      |            | 466-74-L   | 1880  |
| A Review of Mesozoic Acanthopterygian Fishes, with Special Reference to Those of the English Chalk / by C. Patterson                                                                                                                                 | 1964      |            | 487-5-P    | 3056  |
| A review of the cephalopod family Sepiidae / by William Adam and William J. Rees                                                                                                                                                                     | 1966      |            | ---        | 4650  |
| A review of the marine cottid fishes of California ; A review of the myctophid fishes of the Pacific Coast of the United States / R.L. Bolin                                                                                                         | 1973      |            | 487-52-B   | 3113  |
| A Review of the mysidacea of the United States National Museum / Walter H. Tattersall                                                                                                                                                                | 1951      |            | 485-3-T    | 2974  |
| A review of the Volutidae : synonymy, nomenclature, range and illustrations / by Maxwell Smith                                                                                                                                                       | xx        |            | 484-26-S   | 2747  |
| A revision of the classification of the Calcareous sponges : with a catalogue of the specimens in the British Museum (Natural History)                                                                                                               | 1963      |            | 483-2-B    | 2518  |
| A Revision of the Genus Coscinodiscus and some Allied Genera / by John Rattray                                                                                                                                                                       | 1880      |            | 322-井狩文庫   | 5448  |
| A revision of the marine species of Chaetoceras Ehb. Sect. Simplicia Ostf / by C. H. Ostenfeld                                                                                                                                                       | 1912      |            | 298-井狩文庫   | 5423  |
| A source-book of biological names and terms / Edmund C. Jaeger                                                                                                                                                                                       | 1962      |            | ---        | 3911  |
| A student's text-book of zoology / by Adam Sedgwick                                                                                                                                                                                                  | 1898      |            | 480-Se     | 2202  |
| A student's text-book of zoology / by Adam Sedgwick                                                                                                                                                                                                  | 1905      |            | 480-Se     | 2203  |
| A student's text-book of zoology / by Adam Sedgwick                                                                                                                                                                                                  | 1909      |            | 480-Se     | 2204  |
| A study of demersal fishes and fisheries of the Northeastern Pacific Ocean / by D.L. Alverson, A.T. Pruter and L.L. Ronholt                                                                                                                          | 1964      |            | 660-22-A   | 3264  |
| A study of the ancient but still viable fruit of the Indian lotus found in the peat bed near Pulantien, South Manchuria / by Ichiro Ohga                                                                                                             | 1927      |            | 293-井狩文庫   | 5418  |
| A study of the nervous system of the Sipunculoidea : with some remarks on the development of the two species Phascolion strombi Montagu and Golfingia minuta Keferstein / by Bertil Åkesson                                                          | 1958      |            | 484-4-A    | 2782  |
| A survey and illustrated catalogue of the Teredinidae : (Mollusca: Bivalvia) / by Ruth D. Turner                                                                                                                                                     | 1966      |            | 484-24-T   | 2735  |
| A synopsis of the fishes of China / [by] Henri W. Fowler                                                                                                                                                                                             | 1972      |            | 487-52-F   | 3133  |
| A synopsis of the fishes of China / [by] Henri W. Fowler                                                                                                                                                                                             | 1972      |            | 487-52-F   | 3134  |
| A synopsis of the Siphonophora / by A.K. Totton ; assisted by H.E. Bargmann                                                                                                                                                                          | 1965      |            | 483-34-To  | 2575  |
| A systematic handbook of volumetric analysis, or, the quantitative determination of chemical substances by measure, applied to liquids, solids, and gases : Adapted to the requirements of pure chemical research, pathological chemistry, pharmacy. | 1935      |            | 433-25-Su  | 1394  |
| A textbook of arthropod anatomy / by R.E. Snodgrass                                                                                                                                                                                                  | 1952      |            | 485-S      | 4043  |
| A text-book of botany / by Eduard Strasburger ... [et al.]                                                                                                                                                                                           | 1912      |            | 250-井狩文庫   | 5525  |
| A textbook of invertebrates / H.S. Bhamrah, Kavita Juneja, Sharad Shrivastava, S.C. Jos                                                                                                                                                              | 1992      | 8170416612 | 483-01-B   | 4102  |
| A text-book of zoology / by T. Jeffery Parker and William A. Haswell                                                                                                                                                                                 | 1928      |            | 480-P      | 2199  |
| A text-book of zoology / by T. Jeffery Parker and William A. Haswell                                                                                                                                                                                 | 1928      |            | 480-P      | 2200  |
| A text-book of zoology / by the late T. Jeffery Parker and the late William A. Haswell                                                                                                                                                               | 1962      |            | 480-P      | 2197  |
| A text-book of zoology / by the late T. Jeffery Parker and the late William A. Haswell                                                                                                                                                               | 1963      |            | 480-P      | 2198  |
| A Text-Book of Zoology / by the late T. Jeffery Parker, William A. Haswell                                                                                                                                                                           | 1930      |            | 480-野澤文庫   | 5573  |
| A treatise on comparative embryology / by Francis M. Balfour                                                                                                                                                                                         | 1880 1881 |            | 481-2-内海文庫 | 4752  |
| A treatise on comparative embryology / by Francis M. Balfour                                                                                                                                                                                         | 1880 1881 |            | 481-2-内海文庫 | 4751  |
| A treatise on the British Freshwater Algae : in which are included all the Pigmented Protophyta hitherto found in British Freshwaters / by G. S. West                                                                                                | 1927      |            | 209-井狩文庫   | 5381  |
| A treatise on the phytoplankton of the Atlantic and its tributaries and on the periodical changes of the plankton of Skagerak / by P. T. Cleve                                                                                                       | 1897      |            | 129-井狩文庫   | 5498  |
| A year on the Great Barrier Reef : the story of corals & of the greatest of their creations / by C.M. Yonge                                                                                                                                          | 1930      |            | 290-Y      | 1345  |
| Abstracts of the papers of the South African National Oceanographic Symposium to be held in Cape Town on the 6th-10th August 1973                                                                                                                    | 1973      |            | 452-06-So  | 1447  |
| Abyssal Crustacea / [by] J. Laurens Barnard, Robert J. Menzies [and] Mihai C. Băcescu = Abyssal Crustacea / [by] J. Laurens Barnard, Robert J. Menzies [and] Mihai C. Băcescu                                                                        | 1962      |            | 485-3-B    | 2890  |
| Acanthaster and the coral reef : a theoretical perspective : proceedings of a Workshop held at the Australian Institute of Marine Science, Townsville, Aug. 6-7, 1988 / R.H. Bradbury (ed.)                                                          | 1990      | 3540535012 | 466-63-C   | 5232  |
| Accessory sex glands / edited by K.G. and Rita G. Adiyodi                                                                                                                                                                                            | 1988      | 0471914665 | 481-2-A    | 335   |
| Acid toxicity and aquatic animals / edited by R. Morris ... [et al.]                                                                                                                                                                                 | 1989      | 0521334357 | 466-9-M    | 637   |
| Acmaeidae : Gastropoda Mollusca / by David R. Lindberg                                                                                                                                                                                               | 1981      | 0910286728 | 484-26-L   | 826   |
| Acoela und Rhabdocoelida / bearbeitet von L. von Graff mit beiträgen von L. Böhming und Fr. Von Wagner                                                                                                                                               | 1904 1908 |            | 480-8-B    | 2279  |
| Acoelomate and pseudocoelomate metazoans / edited by Arthur C. Giese, John S. Pearse                                                                                                                                                                 | 1974      | 0122825012 | 481-2-G    | 555   |
| Acta Societatis pro fauna et flora fennica                                                                                                                                                                                                           | 1890 1893 |            | 182-A-井狩文庫 | 5287  |

| Amphisternata, II. : Spatangidae, Loveniidae, Pericosmidæ, Schizasteridae, Brissidae / by Theodor Mortensen                                                                                                                                | 1951      |            | 484-87-M   | 2868  |
| An account of the crustacea stomatopoda of the Indo-Pacific Region based on the collection in the Indian Museum / by Stanley Kemp ; with which are issued illustrations of the zoology of the R.I.M.S.S. 'Investigator'                    | 1913      |            | 111-駒井文庫   | 4883  |
| An account of the species of porphyra found on the Pacific Coast of North America / by Henri T.A. Hus                                                                                                                                      | 1902      |            | 227-井狩文庫   | 5399  |
| An Advanced treatise on meloidogyne / edited by K.R. Barker, C.C. Carter and J.N. Sasser                                                                                                                                                   | 1985      | 0931901022 | 483-74-S   | 2632  |
| An Advanced treatise on meloidogyne / edited by K.R. Barker, C.C. Carter and J.N. Sasser                                                                                                                                                   | 1985      | 0931901014 | 483-74-S   | 816   |
| An annotated list of plankton microorganisms of the Japanese coast / by K. Okamura                                                                                                                                                         | 1907      |            | 292-井狩文庫   | 5417  |
| An atlas of invertebrate structure / [by] W. H. Freeman [and] Brian Bracegirdle                                                                                                                                                            | 1971      | 0435603159 | 481-1-B    | 650   |
| An ecological approach to acanthocephalan physiology / by D. W. T. Crompton                                                                                                                                                                | 1970      | 052107939X | 483-75-C   | 2629  |
| An index to the genera and species of the foraminifera 1890-1950 / by Hans E. Thalmann                                                                                                                                                     | 1960      |            | 483-14-Th  | 2514  |
| An introduction to behavioural ecology / J.R. Krebs, N.B. Davies ; drawings by Jan Parr                                                                                                                                                    | 1987      | 0632014989 | 468-K      | 3439  |
| An introduction to cytology / by Lester W. Sharp                                                                                                                                                                                           | 1921      |            | 335-井狩文庫   | 5461  |
| An introduction to limnology of Lake Biwa / edited by Syuiti Mori                                                                                                                                                                          | 1980      |            | 452-9-M    | 1551  |
| An introduction to marine ecology / R.S.K. Barnes, R.N. Hughes                                                                                                                                                                             | 1988      | 0632020474 | 466-7-B    | 4069  |
| An introduction to mathematical taxonomy / G. Dunn & B.S. Everitt                                                                                                                                                                          | 1982      | 0521283884 | 467-6-D    | 3445  |
| An introduction to systems analysis, with ecological applications / John N. R. Jeffers                                                                                                                                                     | 1978      | 0713126531 | 461-4-J    | 4154  |
| An introduction to the invertebrates / Janet Moore ; illustrations by Raith Overhill                                                                                                                                                       | 2001      | 0521770769 | 483-01-M   | 4203  |
| An introduction to the morphology and classification of the Foraminifera / by Joseph A. Cushman                                                                                                                                            | 1925      |            | 483-14-C   | 2503  |
| An introduction to the study of recent corals / by Sydney J. Hickson                                                                                                                                                                       | 1924      |            | 483-36-H   | 2578  |
| An introduction to the study of the Protozoa : with special reference to the parasitic forms / by E.A. Minchin                                                                                                                             | 1922      |            | 474-野澤文庫   | 5598  |
| An outline of general physiology / by L. V. Heilbrunn                                                                                                                                                                                      | 1938      |            | 463-9-野澤文庫 | 5588  |
| Anacanthini, Allotriognathi, Heterosomata, Berycomorphi, Percomorphi : families / by Max Weber and L. F. de Beaufort                                                                                                                       | 1929      |            | 487-52-W   | 3188  |
| Analisi microscopica di alcuni saggi di fitoplancton raccolti dalla R.N. "Liguria" / G.B. De Toni e Ach. Forti                                                                                                                             | 1916      |            | 189-井狩文庫   | 5360  |
| Analytische Plankton-Studien : Ziele, Methoden und Anfangs-Resultate der quantitativ-analytischen Planktonforschung / von Franz Schütt                                                                                                     | 1892      |            | 466-68-S   | 1859  |
| Anatomie der Fische / von Wilhelm Harder ; hersg. Von R. Demoll, H.N. Maier und H.H. Wundsch                                                                                                                                               | 1964      |            | 487-51-H   | 3077  |
| Anatomie der Fische / von Wilhelm Harder ; hersg. Von R. Demoll, H.N. Maier und H.H. Wundsch                                                                                                                                               | 1964      |            | 487-51-H   | 3076  |
| Anatomy, gas transfer, and acid-base regulation / edited by W.S. Hoar, D.J. Randall                                                                                                                                                        | 1984      | 0123504309 | 487-51-H   | 1269  |
| Ancient lakes : their cultural and biological diversity / edited by H. Kwanabe, G.W. Coulter, and A.C. Roosevelt                                                                                                                           | 1999      | 9080434124 | ---        | 4305  |
| Animal asymmetry / A.C. Neville                                                                                                                                                                                                            | 1976      | 0713125578 | 467-N      | 4139  |
| Animal biochromes and structural colours : physical, chemical, distributional & physiological features of coloured bodies in the animal world / by Denis L. Fox                                                                            | 1953      |            | 481-4-F    | 2385  |
| Animal cytology & evolution / M. J. D. White                                                                                                                                                                                               | 1954      |            | 467-駒井文庫   | 4002  |

| Biological indicators of environmental quality : a bibliography of abstracts / by William A. Thomas, Gerald Goldstein and William H. Wilcox                                                                                                            | 1973      | 0250400227 | 466-9-T  | 857  |
| Biological indicators of freshwater pollution and environmental management / J.M. Hellawell                                                                                                                                                            | 1986      | 1851660011 | 466-9-H  | 640  |
| Biological indicators of water quality / edited by A. James and Lilian Evison                                                                                                                                                                          | 1979      | 0471275905 | 466-9-J  | 853  |
| Biological lectures delivered at the Marine Biological Laboratory of Wood's Holl in the summer session of 1894                                                                                                                                         | 1895      |            | 460-B    | 1591 |
| Biological metaphor and cladistic classification : an interdisciplinary perspective / edited by Henry M. Hoenigswald and Linda F. Wiener                                                                                                               | 1987      | 0812280148 | 467-61-H | 1215 |
| Biological methods for the assessment of water quality : a symposium presented at the seventy-fifth annual meeting, American Society for Testing and Materials / John Cairns, Jr., and K. L. Dickson, editors                                          | 1973      |            | 466-9-S  | 655  |
| Biological monitoring of inland fisheries / edited by John S. Alabaster                                                                                                                                                                                | 1977      | 0853347190 | 660-7-A  | 301  |
| Biological monitoring of marine pollutants : proceedings of a Symposium on Pollution and Physiology of Marine Organism[s], held in Milford, Connecticut, November 7-9, 1980 [i.e. 1979]                                                                | 1981      | 0127184503 | 466-9-V  | 684  |
| Biological monitoring of water and effluent quality : a symposium, Blacksburg, Va., 2-4 Nov. 1975 / John Cairns, Jr., K.L. Dickson, and G.F. Westlake, editors ; sponsored by ASTM Committee D-19 on Water, American Society for Testing and Materials | 1976      |            | 466-9-C  | 591  |
| Biological oceanography : an early history, 1870-1960 / Eric L. Mills                                                                                                                                                                                  | 1989      | 0801423406 | 452-M    | 4195 |
| Biological oceanography : an introduction / Carol M. Lalli and Timothy R. Parsons                                                                                                                                                                      | 1993      | 0080410146 | 452-O    | 5638 |
| Biological oceanography of the northern North Pacific Ocean : Dedicated to Dr. Sigeru Motoda in commemoration of his contribution to marine biology / Chief editor: A. Y. Takenouti                                                                    | 1972      |            | 466-Ta   | 1697 |
| Biological oxidation / by Carl Oppenheimer and Kurt G. Stern ; with the collaboration of W. Roman                                                                                                                                                      | 1939      |            | 464-野澤文庫 | 5590 |
| Biological processes and wastes in the ocean / edited by Judith M. Capuzzo, Dana R. Kester                                                                                                                                                             | 1987      | 0898748100 | 466-9-C  | 854  |
| Biological products / by Louis Gershenfeld                                                                                                                                                                                                             | 1939      |            | 465-5-G  | 1677 |
| Biological rhythm research / by A. Sollberger                                                                                                                                                                                                          | 196       |            | 460-S    | 1595 |
| Biological rhythms in the marine environment / edited by P. J. DeCoursey                                                                                                                                                                               | 1976      | 0872493423 | 452-D    | 308  |
| Biological surveys of estuaries and coasts / edited by J.M. Baker and W.J. Wolff                                                                                                                                                                       | 1987      | 0521324076 | 466-62-B | 247  |
| Biological system of mangroves : a report of East Indonesian Mangrove Expedition, 1986 / edited by Kazuhiko Ogino and Mitsuo Chihara                                                                                                                   | 1988      |            | 466-7-O  | 223  |
| Biological systematics : the state of the art / Alessandro Minelli                                                                                                                                                                                     | 1993      | 0412364409 | 467-6-M  | 1062 |
| Biologie antarctique : premier symposium : Paris, 2-8, septembre 1962 : comptes-rendus / organisé par le S.C.A.R.                                                                                                                                      | 1964      |            | ---      | 3842 |
| Biologie comparée des espèces marines dans les différents districts de leur aire de répartition : (On the comparative biology of marine species studied in different districts of their area of distribution)                                          | 1958      |            | 466-B    | 1679 |
| Biologie der Meereshöhlen : Topographie, Faunistik und Ökologie eines unterseeischen Lebensraumes : eine Monographie / von Rupert Riedl                                                                                                                | 1966      |            | 466-R    | 1695 |
| Biologie der primär flügellosen Insekten / von J. Paclt                                                                                                                                                                                                | 1956      |            | 486-2-P  | 3011 |
| Biologie der Zelle / Überarb., ergänzt und hrsg. Von Manfred Gersch ; von Erich Ries                                                                                                                                                                   | 1953      |            | 481-1-R  | 283  |
| Biologie des eaux souterraines littorales et continentales / Claude Delamare Deboutteville                                                                                                                                                             | 1960      |            | 452-95-D | 1560 |
| Biology / Edited by O. A. Jones [and] R. Edean                                                                                                                                                                                                         | 1973 1976 | 0123896037 | 466-J    | 3492 |
| Biology / Edited by O. A. Jones [and] R. Edean                                                                                                                                                                                                         | 1973 1976 | 0123896029 | 466-J    | 1687 |
| Biology / sponsored by the University of Miami, Rosenstiel School of Marine and Atmospheric Science, the Smithsonian Institution, the United States Geological Survey                                                                                  | 1977      | 0930050010 | 466-63-G | 1807 |
| Biology and systematics of colonial organisms : proceedings of an international symposium held at the University of Durham / edited by G. Larwood and B. R. Rosen                                                                                      | 1979      | 012436960X | 466-66-L | 1821 |
| Biology and water pollution control / [by] Charles E. Warren ; in collaboration with Peter Doudoroff                                                                                                                                                   | 1971      | 072169120X | 466-9-W  | 759  |
| Biology data book / compiled and edited by Philip L. Altman and Dorothy S. Dittmer                                                                                                                                                                     | 1972 1974 | 72087738   | 460-3-A  | 3664 |
| Biology data book / compiled and edited by Philip L. Altman and Dorothy S. Dittmer                                                                                                                                                                     | 1972 1974 | 72087738   | 460-3-A  | 3662 |
| Biology data book / compiled and edited by Philip L. Altman and Dorothy S. Dittmer                                                                                                                                                                     | 1972 1974 | 72087738   | 466-3-A  | 3663 |
| Biology of ascidians / H. Sawada, H. Yokosawa, C.C. Lambert (eds.)                                                                                                                                                                                     | 2001      | 4431702962 | 484-94-S | 142  |
| Biology of benthic organisms : 11th European Symposium on Marine Biology, Galway, October 1976 / edited by B.F. Keegan and P.O. Ceidigh and P.J.S. Boaden                                                                                              | 1977      | 0080213782 | 466-66-K | 1819 |
| Biology of brackish water / by Adolf Remane, Carl Schlieper                                                                                                                                                                                            | 1971      | 0471716405 | 466-62-R | 1804 |
| Biology of bryozoans / edited by Robert M. Woollacott, Russel L. Zimmer                                                                                                                                                                                | 1977      | 012763150X | 484-53-W | 1093 |
| Biology of copepods : proceedings of the Third International Conference on Copepoda / edited by Geoffrey A. Boxshall and H. Kurt Schminke                                                                                                              | 1988      | 9061936543 | 485-3-B  | 268  |
| Biology of echinodermata : proceedings of the seventh International Echinoderm Conference, Atami, 9-14 September 1990 / edited by Tomio Yanagisawa... [et al.]                                                                                         | 1991      | 9054100109 | 484-8-E  | 456  |
| Biology of fishes / Carl E. Bond                                                                                                                                                                                                                       | 1979      | 0721618391 | 487-5-B  | 3080 |
| Biology of intertidal animals / by Richard C. Newell                                                                                                                                                                                                   | 1979      |            | 466-61-N | 1800 |
| Biology of meiofauna : proceedings of the Fifth International Meiofauna Conference, held in Ghent, Belgium, 16-20 August 1983 / edited by C. Heip                                                                                                      | 1984      | 906193513X | 466-H    | 270  |
| Biology of the Acanthocephala / edited by D.W.T. Crompton and Brent B. Nickol                                                                                                                                                                          | 1985      | 0521246741 | 483-78-C | 4217 |
| Biology of the cyclostomes / M.W. Hardisty                                                                                                                                                                                                             | 1979      | 0412141205 | 487-4-H  | 3018 |
| Biology of the foraminifera / edited by John J. Lee and O. Roger Anderson                                                                                                                                                                              | 1991      | 012440670X | 483-1-L  | 5233 |
| Biology of the invertebrates / [by] Cleveland P. Hickman                                                                                                                                                                                               | 1967      |            | 483-01-H | 4103 |
| Biology of the invertebrates / Jan A. Pechenik                                                                                                                                                                                                         | 1991      | 069707630X | 483-01-P | 4097 |
| Biology of the land crabs / edited by Warren W. Burggren, Brian R. McMahon                                                                                                                                                                             | 1988      | 0521306906 | 485-3-B  | 1120 |
| Biology of the oceans / [Edited by] Donald J. Reish                                                                                                                                                                                                    | 1969      |            | 466-R    | 1694 |
| Biology of the seas of the U.S.S.R. / L. Zenkevitch ; translated by S. Botcharovskaya                                                                                                                                                                  | 1963      |            | 452-27-Z | 1531 |
| Biology of the Turbellaria / Edited by Nathan W. Riser [and] M. Patricia Morse                                                                                                                                                                         | 1974      | 00705294   | 483-4-R  | 2621 |
| Biology of the vertebrates : a comparative study of man and his animal allies / by Herbert Eugene Walter                                                                                                                                               | 1928      |            | 487-内海文庫 | 4771 |
| Biology, history, and natural philosophy / Edited by Allen D. Breck and Wolfgang Yourgrau                                                                                                                                                              | 1972      | 0306305739 | 461-1-B  | 4112 |
| Bioluminescence / by E. Newton Harvey                                                                                                                                                                                                                  | 1952      |            | 481-36-H | 2382 |
| Biomarkers in marine organisms: a practical approach / edited by Philippe Garrigues [et al.]                                                                                                                                                           | 2001      | 044482913X | 466-9-G  | 867  |
| Biominalization (BIOM 2001) : formation, diversity, evolution and application / edited by Kobayashi I. and Ozawa H                                                                                                                                     | 2004      | 4486031709 | 464-8-K  | 5254 |
| Biomonitoring of trace aquatic contaminants / David J.H. Phillips and Philip S. Rainbow                                                                                                                                                                | 1993      | 1851668845 | 466-9-P  | 918  |
| Biophila / Edward O. Wilson                                                                                                                                                                                                                            | 1984      | 0674074424 | ---      | 4344 |
| Biotic interactions in recent and fossil benthic communities / edited by Michael J.S. Tevesz and Peter L. McCall                                                                                                                                       | 1983      | 0306412926 | 457-T    | 4248 |
| Biscayan plankton collected during a cruise of H.M.S. 'Research,' 1900. Part I.- Methods and data / by G. H. Fowler                                                                                                                                    | 1904      |            | 206-井狩文庫 | 5378 |
| Bivalvia / L. R. Cox ... [et al.]                                                                                                                                                                                                                      | 1969      |            | 457-08-M | 3476 |
| Bivalvia / L. R. Cox ... [et al.]                                                                                                                                                                                                                      | 1969      |            | 457-08-M | 1577 |
| Bivalvia through reptilia / edited by T.J. Pandian and F. John Vernberg                                                                                                                                                                                | 1987      | 0125447922 | 481-3-P  | 238  |
| Blackwell's concise encyclopedia of ecology / edited by Peter Calow                                                                                                                                                                                    | 1999      | 0632048727 | ---      | 4345 |

| Structure and function in the nervous systems of invertebrates / by Theodore Holmes Bullock and G. Adrian Horridge ; with chapters by Howard A. Bern, Irvine R. Hagadorn, J.E. Smith                                                                | 1965      |            | 481-17-B  | 2332  |
| Structure and function of midgut-gland of Mollusca : Differentiation of crenated-folds in midgut-gland of Eulamellibranchia : Source of shellfish poison in Lake Hamana / Masao Nakajima                                                            | 1970      |            | 484-2-N   | 2699  |
| Structure and function of the kidney / volume editor, Rolf K.H. Kinne                                                                                                                                                                               | 1989      | 3805548869 | 464-K     | 313   |
| Studien über die Algenflora der schwedischen Westküste / zur öffentlichen Beurteilung vorgelegt Harald Kylin                                                                                                                                        | 1907      |            | 246--井狩文庫 | 5527  |
| Studien über die entwicklungsgeschichte der Florideen / Harald Kylin                                                                                                                                                                                | 1923      |            | 131--井狩文庫 | 5297  |
| Studien über die Zygoten I and II / von Dr. H. Klebahn                                                                                                                                                                                              |           |            | 240--井狩文庫 | 5552  |
| Studier over de danske søers plankton / af C. Wesenberg-Lund ; for de botaniske afsnits vedkommende med bistand af mag. Sc. E. Larsen                                                                                                               | 1904      |            | 110--井狩文庫 | 5281  |
| Studies in adaptation : the behavior of higher Crustacea / edited by Steve Rebach and David W. Dunham                                                                                                                                               | 1983      | 0471898236 | 485-3-R   | 4204  |
| Studies in benthic foraminifera : proceedings of the Fourth International Symposium on Benthic Foraminifera, Sendai, 1990 / edited by Y. Takayanagi & T. Saito                                                                                      | 1992      | 4486012054 | 483-14-T  | 813   |
| Studies in Ecuadorian geography / by Edwin N. Ferdon, Jr., with the collaboration of Malcolm H. Bissell in "The climates of Ecuador," and an appendix by William C. Steere, "The phytogeography of Ecuador."                                        | 1950      |            | 296-15-F  | 1346  |
| Studies in the philosophy of biology : reduction and related problems / edited by Francisco Jose Ayala and Theodosius Dobzhansky                                                                                                                    | 1974      | 0520026497 | 461-1-A   | 1637  |
| Studies in the structure, physiology and ecology of molluscs : the proceedings of a symposium held at the Zoological Society of London on 8 and 9 March 19 67 / edited by Vera Fretter                                                              | 1968      |            | 484-2-F   | 2663  |
| Studies of the development and larval forms of echinoderms / by Th. Mortensen                                                                                                                                                                       | 1921      |            | 484-8-M   | 2843  |
| Studies on Copepoda, III : a phylogeny of Euchiarella                                                                                                                                                                                               | 1984      | 9004074139 | --        | 165   |
| Studies on the bottom fauna of Japanese lakes                                                                                                                                                                                                       | 1931-1939 |            | --内海文庫    | 5033  |
| Studies on the crabs of Japan / by Tune Sakai                                                                                                                                                                                                       | 1936 1938 |            | 485-3-Sa  | 2968  |
| Studies on the crabs of Japan / by Tune Sakai                                                                                                                                                                                                       | 1939      |            | 485-3-Sa  | 2969  |
| Studies on the geographical distribution of freshwater fishes in Eastern Asia / by Tamezo Mori                                                                                                                                                      | 1936      |            | 487-52-M  | 3152  |
| Studies on the Life History of Laminaria angustata var.longissima (M.) Miyabe / edited by Sigeru Sasaki                                                                                                                                             | 1973      |            | 474-6-S   | 2115  |
| Studies on the marine benthic communities = 海底群集の研究                                                                                                                                                                                                 | 1938-1958 |            | --内海文庫    | 5034  |
| Studies on the structure and development of vertebrates / by Edwin S. Goodrich                                                                                                                                                                      | 1958      |            | 487-G     | 4227  |
| Studies on two aberrant Ctenophores, Coeloplana and Gastrodes / Taku Komai                                                                                                                                                                          | 1922      |            | 243--井狩文庫 | 5531  |
| Study on Parao barrier reef, I : Parao Tropica Biological Station / 内海富士夫〔著〕                                                                                                                                                                        | 1934      |            | --内海文庫    | 5027  |
| Study on Parao barrier reef, II : Parao Tropica Biological Station / 内海富士夫〔著〕                                                                                                                                                                       | 1934      |            | --内海文庫    | 5028  |
| Study on Parao barrier reef, III : Parao Tropica Biological Station / 内海富士夫〔著〕                                                                                                                                                                      | 1934      |            | --内海文庫    | 5029  |
| Studying temperate marine environments : a handbook for ecologists / edited by Michael Kingsford and Christopher Battershill                                                                                                                        | 1998      | 090881254X | 452-17-K  | 794   |
| Stygofauna mundi : a faunistic, distributional, and ecological synthesis of the world fauna inhabiting subterranean waters (including the marine interstitial) / edited by Lazare Botosaneanu                                                       | 1986      | 9004075712 | 482-6-B   | 219   |
| Sublethal effects of toxic chemicals on aquatic animals : proceedings of the Swedish-Netherlands Symposium, Wageningen, The Netherlands, September 2-5, 1975 / edited by J. H. Koeman and J. J. T. W. A. Strik                                      | 1975      | 0444413995 | 466-9-K   | 701   |
| Submarine geology / by Francis P. Shepard                                                                                                                                                                                                           | 1948      |            | 452-8-Sh  | 1543  |
| Sulawesi seas : Indonesia's magnificent underwater realm / Mike Severns ; text by Mike Severns and Pauline Fiene-Severns                                                                                                                            | 1994      | 9625930523 | 466-6-S   | 3372  |
| Summary of Philippine mollusks / by Leopoldo A. Faustino                                                                                                                                                                                            | 1928 1930 |            | 484-2-F   | 2664  |
| Sur la flore planctonique de la rade de Saint-Vaast-la-Hougue, 1908-1912 / par L. Mangin                                                                                                                                                            | 1913      |            | 264--井狩文庫 | 5516  |
| Sur les péridiniens du golfe de Marseille / par M. Paul Gourret                                                                                                                                                                                     | 1883      |            | 215--井狩文庫 | 5387  |
| Sur les siphonophores de la mer de Nice : lu à la section naturelles et mathématiques de l'Institut Genevois, dans les séances du 27 mai et du 24 juin 1855 / par C. Vogt                                                                           | 185-      |            | --川村文庫    | 4616  |
| Sur quelques algues unicellulaires d'eau douce récoltées dans le domaine Malais / par Ch. Bernard                                                                                                                                                   | 1909      |            | 163--井狩文庫 | 5308  |
| Swedish Arctic and Antarctic explorations, 1758-1910 : bibliography / by J.M. Hulth                                                                                                                                                                 | 1910      |            | 299-8-H   | 1354  |
| Symbiotic interactions / by A.E. Douglas                                                                                                                                                                                                            | 1994      | 0198542941 | 467-D     | 4182  |
| Symposium on marine microbiology / compiled and edited by Carl H. Oppenheimer                                                                                                                                                                       | 1963      |            | 466-5-O   | 1253  |
| Symposium on Pink Salmon : a symposium held at the University of British Columbia, October 13 to 15, 1960 / edited by N.J. Wilimovsky                                                                                                               | 1962      |            | 487-5-W   | 3061  |
| Symposium on Radiant Energy in the Sea / Union géodésique et géophysique internationale                                                                                                                                                             | 1961      |            | 452-12-J  | 1494  |
| Symposium on Salmon and Trout in Streams : [papers] / edited by T. G. Northcote                                                                                                                                                                     | 1969      |            | 487-5-N   | 3047  |
| Symposium über den Einfluss der Strömungsgeschwindigkeit auf die Organismen des Wassers : 18-23. September 1961 im Hydrobiologischen Laboratorium der Eidgenössischen Technischen Hochschule in Kastanienbaum (Schweiz)                             | 1962      |            | 452-9-J   | 1550  |
| Synchrony in cell division and growth / edited by Erik Zeuthen                                                                                                                                                                                      | 1964      |            | 463--内海文庫 | 4515  |

| The Cnidaria / edited by Paul Valentich Scott and James A. Blake                                                                                                                                                                          | 1998      | 0936494085 | 482-6-B    | 2450  |
| The Cnidaria and their evolution : the proceedings of a symposium held at the Zoological Society of London on 3 and 4 March 1965 / edited by W.J. Rees                                                                                    | 1966      |            | 483-3-R    | 2553  |
| The Coastline : A contribution to our understanding of its ecology and physiography in relation to land-use and management and the pressures to which it is subject / edited by R. S. K. Barnes                                           | 1977      | 0471994707 | 452-8-B    | 1539  |
| The comatulids                                                                                                                                                                                                                            | 1931      |            | 484-8-C    | 2796  |
| The comatulids                                                                                                                                                                                                                            | 1941      |            | 484-8-C    | 2813  |
| The comatulids                                                                                                                                                                                                                            | 1947      |            | 484-8-C    | 2814  |
| The comatulids                                                                                                                                                                                                                            | 1950      |            | 484-8-C    | 2815  |
| The comatulids                                                                                                                                                                                                                            | 1967      |            | 484-8-C    | 2816  |
| The comparative endocrinology of the invertebrates / [by] Kenneth C. Highnam and Leonard Hill                                                                                                                                             | 1977      | 0713125993 | 481-34-H   | 2375  |
| The Compleat cladist : a primer of phylogenetic procedures / E.O. Wiley ... [et al.]                                                                                                                                                      | 1991      | 0893380350 | ---        | 4334  |
| The composition of sea-water ; Comparative and descriptive oceanography / general editor, M.N. Hill                                                                                                                                       | 1963      |            | 452--Se    | 1430  |
| The Conodonts : morphology, taxonomy, paleoecology, and evolutionary history of a long-extinct animal phylum / Walter C. Sweet                                                                                                            | 1988      | 0195043529 | 457--S     | 4090  |
| The copepods of the woods hole region Massachusetts / by Charles Branch Wilson                                                                                                                                                            | 1932      |            | 485-3-W    | 2992  |
| The coral reef problem / by William Morris Davis                                                                                                                                                                                          | 1928      | 0882753835 | 455-9-D    | 1565  |
| The coral siderastrea radians and its postlarval development / J. Edwin Duerden                                                                                                                                                           | 1904      |            | 483-36-D   | 2577  |
| The crucible of creation : the Burgess Shale and the rise of animals / Simon Conway Morris                                                                                                                                                | 1998      | 0198502567 | 457--C     | 5116  |
| The Crustacea (pt. 2) The Isopoda, Cumacea and Tanaidacea / edited by James A. Blake and Paul H. Scott                                                                                                                                    | 1997      | 0936494166 | 482-6-B    | 2457  |
| The Crustacea (pt. 3) The Amphipoda / edited by James A. Blake, Les Watling, and Paul H. Scott                                                                                                                                            | 1997      | 0936494271 | 482-6-B    | 2458  |
| The crustaceans of South Australia / by Herbert M. Hale                                                                                                                                                                                   | 1929      |            | 485-3-H    | 2953  |
| The crustaceans of South Australia / by Herbert M. Hale                                                                                                                                                                                   | 1929      |            | 485-3-H    | 2921  |
| The Cuvier-Geoffroy debate : French biology in the decades before Darwin / Toby A. Appel                                                                                                                                                  | 1987      | 0195041380 | 467-5-A    | 227   |
| The deep / narrated by David Attenborough                                                                                                                                                                                                 | 2006      |            | ---        | 4422  |
| The depths of the ocean : a general account of the modern science of oceanography based largely on the scientific researches of the norwegian steamer Michael Sars in the North Atlantic / by John Murray and Johan Hjort                 | 1912      |            | 452--Mu    | 1424  |
| The development of biological systematics : Antoine-Laurent de Jussieu, nature, and the natural system / Peter F. Stevens                                                                                                                 | 1994      | 0231064403 | 460-2-J    | 1178  |
| The dialectical biologist / Richard Levins and Richard Lewontin                                                                                                                                                                           | 1985      | 0674202813 | 461-1-L    | 3409  |
| The dinoflagellates of northern seas / by Marie V. Lebour                                                                                                                                                                                 | 1925      |            | 252--井狩文庫  | 5523  |
| The discovery of evolution / David Young                                                                                                                                                                                                  | 1992      | 0521435870 | 467-5-Y    | 1129  |
| The distribution and abundance of animals / by H. G. Andrewartha and L. C. Birch                                                                                                                                                          | 1954      | 0226020266 | 481-7-A    | 2398  |
| The diversity of life / Edward O. Wilson                                                                                                                                                                                                  | 1993      | 0393964574 | 468--W     | 4158  |
| The diversity of living organisms / edited by R.S.K. Barnes                                                                                                                                                                               | 1998      | 0632049170 | 460--B     | 4208  |
| The dynamics of competition and predation / [by] Michael P. Hassell                                                                                                                                                                       | 1976      | 0713125853 | 468--H     | 4142  |
| The dynamics of evolution : the punctuated equilibrium debate in the natural and social sciences / edited by Albert Somit and Steven A. Peterson                                                                                          | 1992      | 0801497639 | 467-5-S    | 4228  |
| The Early evolution of Metazoa and the significance of problematic taxa : proceedings of an international symposium held at the University of Camerino, 27-31 March 1989 / edited by Alberto M. Simonetta and Simon Conway Morris         | 1991      | 0521402425 | 457--S     | 1161  |
| The earth beneath the sea ; history / general editor, M.N. Hill                                                                                                                                                                           | 1963      | 0471396214 | 452--Se    | 1431  |
| The echinoderm fauna of Australia : its composition and its origin / Hubert Lyman Clark                                                                                                                                                   | 1946      |            | 484-8-C    | 2797  |
| The echinoderma / By F.A. Bather ; assisted by J.W. Gregory & E.S. Goodrich                                                                                                                                                               | 1900      |            | 480--L     | 2192  |
| The echinoderms southern china / edited by Yulin Liao, Alisa M. Clark                                                                                                                                                                     | 1995      | 7030040813 | 484-8-L    | 716   |
| The echinoid fauna from Japan and adjacent regions / by Syozo Nisiyama                                                                                                                                                                    | 1966      |            | 484-8-N    | 2807  |
| The echinoid fauna from Japan and adjacent regions / by Syozo Nisiyama                                                                                                                                                                    | 1968      |            | 484-8-N    | 2808  |
| The Ecological effects of oil pollution on littoral communities : proceedings of a symposium organized by the Institute of Petroleum and held at the Zoological Society of London, 30 November - 1 December 1970 / edited by E. B. Cowell | 1971      |            | 466-9-C    | 317   |
| The ecology of fishes / G. V. Nikolsky ; translated from the Russian by L. Birkett                                                                                                                                                        | 1963      | 0125197500 | 487-51-N   | 3092  |
| The Ecology of fishes on coral reefs / edited by Peter F. Sale                                                                                                                                                                            | 1991      | 0126151806 | 487-51-S   | 4077  |
| The ecology of fouling communities / John D. Costlow, editor                                                                                                                                                                              | 1975      |            | 555-6-C    | 276   |
| The ecology of invasions by animals and plants / Charles S. Elton                                                                                                                                                                         | 1958      |            | 468--E     | 1941  |
| The ecology of rocky shores / J.R. Lewis                                                                                                                                                                                                  | 1964      |            | 466-71-L   | 3871  |
| The economy of nature and the evolution of sex / Michael T. Ghiselin                                                                                                                                                                      | 1974      | 0520024745 | 467-5-G    | 1927  |
| The Ecosystem concept in natural resource management / edited by George M. Van Dyne                                                                                                                                                       | 1969      | 0127134506 | 468--V     | 1955  |
| The Effects of contaminants on ecological systems : proceedings of an IAWPRC Specialized Conference held in Blacksburg, Virginia, U.S.A., 17-19 November 1986 / editor, E.E. Herricks                                                     | 1987      | 0080355951 | 466-9-H    | 1234  |
| The Effects of stress and pollution on marine animals / by B.L. Bayne ... [et al.]                                                                                                                                                        | 1985      | 0030570190 | 466-9-B    | 672   |
| The elementary chemical composition of marine organisms / A. P. Vinogradov ; [translated from Vinogradov's original Russian by Julia Efron and Jane K. Setlow,                                                                            | 1953      |            | 466-8-V    | 1906  |
| The encyclopedia of oceanography / edited by Rhodes W. Fairbridge                                                                                                                                                                         | 1966      |            | 452-03-F   | 1442  |
| The end of evolution : a journey in search of clues to the third mass extinction facing planet earth / Peter Ward                                                                                                                         | 1995      | 0553374699 | 467--W     | 1116  |
| The end of evolution : on mass extinctions and the preservation of biodiversity / Peter Ward                                                                                                                                              | 1994      | 0553088122 | 467-5-W    | 4116  |
| The endocrine system / edited by W.S. Hoar and D.J. Randall                                                                                                                                                                               | 1969      | 0123504023 | 487-51-H   | 1260  |
| The environmental dictionary and regulatory cross-reference / compiled by James J. King                                                                                                                                                   | 1995      | 0471119954 | 466-9-K    | 801   |
| The estuarine ecosystem / Donald S. McLusky                                                                                                                                                                                               | 1989      | 0216926726 | 466-62-M   | 4083  |
| The evolution of complexity by means of natural selection / John Tyler Bonner                                                                                                                                                             | 1988      | 0691084947 | 467-5-B    | 4197  |
| The evolution of genetic systems / by C.D. Darlington                                                                                                                                                                                     | 1939      |            | 467-5-駒井文庫 | 3971  |
| The evolution of life / [edited by Sol Tax]                                                                                                                                                                                               | 1960      |            | 467-5-駒井文庫 | 3984  |
| The evolution of life histories : theory and analysis / Derek A. Roff                                                                                                                                                                     | 1992      | 0412023911 | 467--R     | 4245  |
| The evolution of living things / H. Graham Cannon                                                                                                                                                                                         | 1958      |            | 467-5-駒井文庫 | 3996  |
| The evolution of reproduction / edited by C.R. Austin and R.V. Short : Illustrations by John R. Fuller                                                                                                                                    | 1976      | 0521290856 | 489--A     | 4134  |

| The faunal connections between Europe and North America / by Carl H. Lindroth                                                                                                                                                                               | 1957      |            | 482—L       | 2445  |
| The feeding mechanism, function of the tube, and physiology of digestion of Sabella pavonina / by E.A.T. Nicol                                                                                                                                              | 1930      |            | 483-84-N    | 2646  |
| The fish immune system : organism, pathogen, and environment / edited by George Iwama, Teruyuki Nakanishi                                                                                                                                                   | 1996      | 0123504392 | 487-51-H    | 401   |
| The fishes / by Uri Lanham                                                                                                                                                                                                                                  | 1967      |            | 487-5-L     | 1037  |
| The fishes of India : being a natural history of the fishes known to inhabit the seas and fresh waters of India, Burma, and Ceylon / Francis Day                                                                                                            | 1967      |            | 487-52-D    | 3116  |
| The fishes of India : being a natural history of the fishes known to inhabit the seas and fresh waters of India, Burma, and Ceylon / Francis Day                                                                                                            | 1967      |            | 487-52-D    | 3117  |
| The fishes of New Guinea / by Ian S.R. Munro ; with a foreword by C.E. Barnes                                                                                                                                                                               | 1967      |            | 487-5-M     | 5165  |
| The fishes of North and Middle America : a descriptive catalogue of the species of fish-like vertebrates found in the waters of North America, north of the Isthmus of Panama / by David Starr Jordan and Barton Warren Evermann                            | 1963      |            | 487-52-J    | 3140  |
| The fishes of North and Middle America : a descriptive catalogue of the species of fish-like vertebrates found in the waters of North America, north of the Isthmus of Panama / by David Starr Jordan and Barton Warren Evermann                            | 1963      |            | 487-52-J    | 3142  |
| The fishes of North and Middle America : a descriptive catalogue of the species of fish-like vertebrates found in the waters of North America, north of the Isthmus of Panama / by David Starr Jordan and Barton Warren Evermann                            | 1963      |            | 487-52-J    | 3143  |
| The fishes of North and Middle America : a descriptive catalogue of the species of fish-like vertebrates found in the waters of North America, north of the Isthmus of Panama / by David Starr Jordan and Barton Warren Evermann                            | 1963      |            | 487-52-J    | 3141  |
| The fishes of Oceania / by Henry W. Fowler                                                                                                                                                                                                                  | 1928      |            | 487-52-F    | 3118  |
| The fishes of Oceania / by Henry W. Fowler                                                                                                                                                                                                                  | 1931      |            | 487-52-F    | 3119  |
| The fishes of Oceania / by Henry W. Fowler                                                                                                                                                                                                                  | 1934      |            | 487-52-F    | 3120  |
| The fishes of Oceania / by Henry W. Fowler                                                                                                                                                                                                                  | 1949      |            | 487-52-F    | 3121  |
| The fishes of Seychelles / by J. L. B. Smith and Margaret Mary Smith; illustrations by Margaret M. Smith                                                                                                                                                    | 1969      |            | 487-52-S    | 3197  |
| The fishes of the British Isles and North-West Europe / Alwyne Wheeler ; illustrated by Valerie Du Heaume                                                                                                                                                   | 1969      | 0333059557 | 487-52-W    | 3200  |
| The fishes of the families Amiidae, Chandidae, Duleidae, and Serranidae, obtained by the United States Bureau of Fisheries steamer "Albatross" in 1907 to 1910, chiefly in the Philippine Islands and adjacent seas / by Henry W. Fowler and Barton A. Bean | 1930      |            | 487-52-F    | 3128  |
| The fishes of the families Pomacentridae, Labridae, and Callyodontidae, collected by the United States Bureau of Fisheries steamer "Albatross," chiefly in Philippine seas and adjacent waters                                                              | 1928      |            | 487-52-F    | 3127  |
| The fishes of the series Capriiformes, Ehippiiformes, ...                                                                                                                                                                                                   |           |            |             |       |
| The fishes of the families Pseudochromidae, Lobotidae, Pempheridae, Priacanthidae, Lutjanidae, Pomadasysidae, and Teraponidae, collected by the United States Bureau of Fisheries steamer "Albatross," chiefly in Philippine seas and adjacent waters       | 1931      |            | 487-52-F    | 3126  |
| The fishes of the groups Elasmobranchii, Holocephali, Isospondyli, and Ostarophysi, obtained by the United States Bureau of Fisheries steamer "Albatross" in 1907 to 1910, chiefly in the Philippine Islands and adjacent seas / by Henry W. Fowler         | 1941      |            | 487-52-F    | 3125  |
| The fishes of Zanzibar                                                                                                                                                                                                                                      | 1971      | 0912318007 | 487-52-A    | 3110  |
| The formation of vegetable mould, through the action of worms, with observations on their habits / Charles Darwin ; with a foreword by Stephen Jay Gould                                                                                                    | 1985 1881 |            | 483-8-D     | 1404  |
| The fossil trail : how we know what we think we know about human evolution / Ian Tattersall                                                                                                                                                                 | 1995      | 0195061012 | 467—T       | 1137  |
| The fossils of the Burgess Shale / Derek E.G. Briggs, Douglas H. Erwin, Frederick J. Collier ; with photographs by Chip Clark                                                                                                                               | 1994      | 15609865   | 457—B       | 5114  |
| The free-living lower invertebrates / [by] Frederick M. Bayer and Harding B. Owre                                                                                                                                                                           | 1968      |            | 483-01-B    | 4150  |
| The free-living unarmored Dinoflagellata / by Charles Atwood Kofoid and Olive Swezy                                                                                                                                                                         | 1921      |            | 483-13-Ko   | 2501  |
| The free-living unarmored Dinoflagellata / by Charles Atwood Kofoid and Olive Swezy                                                                                                                                                                         | 1921      |            | 115—井狩文庫    | 5544  |
| The future of the fishing industry of the United States : ... / ed. By De Witt Gilbert                                                                                                                                                                      | 1968      |            | 661—G       | 3294  |
| The Future of the Hong Kong seashore / edited by Brian Morton                                                                                                                                                                                               | 1979 1979 | 0195804252 | 330—M       | 4569  |
| The Galathea deep sea expedition 1950-1952 / edited by Anton F. Bruun ... [et al.] ; translated from the Danish by Reginald Spink                                                                                                                           | 1956      |            | 299-2-B     | 1352  |
| The garden of Ediacara : discovering the first complex life / Mark A.S. | The investigation of fish-power problems : a symposium held at the University of British Columbia, April 29 and 30, 1957 / edited by P.A. Larkin                                                                                           | 1958      |            | 487-51-L   | 3094 |
| The Kuroshio : a symposium on the Japan current / Edited by John C. Marr                                                                                                                                                                   | 1970      |            | 452-7-Ma   | 1537 |
| The life history of some marine plankton diatoms / by F. Gross                                                                                                                                                                             | 1937      |            | 474-57-G   | 2098 |
| The life of the ocean / [by] N. J. Berrill                                                                                                                                                                                                 | 1966      |            | 466-6-B    | 487  |
| The life of the seashore / [by] William H. Amos                                                                                                                                                                                            | 1966      |            | 466-6-A    | 486  |
| The littoral fauna of the British Isles : a handbook for collectors / by N.B. Eales ; with a foreword by the late Stanley Kemp                                                                                                             | 1961      |            | 482-33-E   | 2448 |
| The littorinid molluscs of mangrove forests in the Indo-Pacific region : the genus littoraria / David G. Reid                                                                                                                              | 1986      | 0565009785 | 484-26-R   | 830  |
| The living cowries / by C. M. Burgess                                                                                                                                                                                                      | 1970      | 0498066770 | 484-26-B   | 1224 |
| The living seashore / [by] Joan M. Clayton ; with 16 colour and 16 black-and-white plates from photographs by the author ; line drawings by Sean Milne ; diagrams by F. R. Fraser                                                          | 1974      | 0723217130 | 466-61-C   | 4087 |
| The Long-term effects of oil pollution on marine populations, communities and ecosystems : proceedings of a Royal Society discussion meeting held on 28 and 29 October 1981 / organized by H.A. Cole and R.B. Clark ; edited by R.B. Clark | 1982      | 085403188X | 466-9-C    | 328  |
| The lower Metazoa, comparative biology and phylogeny / edited by Ellsworth C. Dougherty ; in collaboration with Zoe Norwood Brown, Earl D. Hanson and Willard D. Hartman                                                                   | 1963      |            | 466-駒井文庫   | 3970 |
| The luminescence of biological systems : proceedings of the Conference on Luminescence, March 28-April 2, 1954 ...                                                                                                                         | 1955      |            | 481-36-J   | 2383 |
| The Malacofauna of Hong Kong and southern China, II : proceedings of the Second International Workshop on the Malacofauna of Hong Kong and Southern China, Hong Kong, 6-24 April 1983 / edited by Brian Morton and David Dudgeon           | 1985      | 9622091660 | 484-2-M    | 146  |
| The Malacofauna of Hong Kong and southern China, II : proceedings of the Second International Workshop on the Malacofauna of Hong Kong and Southern China, Hong Kong, 6-24 April 1983 / edited by Brian Morton and David Dudgeon           | 1985      | 9622091679 | 484-2-M    | 147  |
| The manual of marine invertebrates / Martyn Haywood, Sue Wells                                                                                                                                                                             | 1989      | 086101474X | 480-76-H   | 898  |
| The marine algæ of Florida with special reference to the Dry Tortugas / by Wm. Randolph Taylor                                                                                                                                             | 1928      |            | 475--T     | 2172 |
| The marine Algae of Peru / by Marshall Avery Howe                                                                                                                                                                                          | 1914      |            | 226--井狩文庫  | 5398 |
| The marine algae of the Danish West Indies / F. Børgesen                                                                                                                                                                                   | 1913 1920 |            | 475--B     | 2145 |
| The marine and fresh water fishes of Ceylon / Ian S. R. Munro                                                                                                                                                                              | 1955      |            | 487-52-M   | 3153 |
| The marine and fresh-water plankton / by Charles C. Davis                                                                                                                                                                                  | 1955      |            | 466-68-D   | 1836 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2141 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2140 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2139 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2350 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2348 |
| The marine benthic algae of Seto Inland sea, Japan / by S. Enomoto ... [et al.]                                                                                                                                                            | 1996      |            | 475--大型    | 2349 |
| The marine decapod Crustacea of California : with special reference to the decapod Crustacea collected by the United States Bureau of Fisheries Steamer "Albatross" ... / by Waldo L. Schmitt                                              | 1921      |            | 485-3-Sc   | 2970 |
| The marine plankton : with special reference to investigations made at Port Erin, Isle of Man during 1907-1914 : a handbook for students and amateur workers (illustrated by tables and plates) / by James Johnstone, Andrew Scott ...     | 1924      |            | 236--井狩文庫  | 5408 |
| The marine shelled Mollusca of the Maltese Islands / Charles Cachia, Constantine Mifsud & Paul M. Sammut ; with illustrations by Alfred Caruana Ruggier                                                                                    | 1991      |            | 484-2-C    | 1239 |
| The material basis of evolution / by Richard Goldschmidt                                                                                                                                                                                   | 1940      |            | 467-5-駒井文庫 | 4001 |
| The meaning of evolution : the morphological construction and ideological reconstruction of Darwin's theory / Robert J. Richards                                                                                                           | 1992      | 0226712028 | 467-5-R    | 1099 |
| The meaning of fossils : episodes in the history of palaeontology / Martin J.S. Rudwick                                                                                                                                                    | 1985      | 0226731030 | 457--R     | 3413 |
| The measurement of biological shape and shape change / Fred L. Bookstein                                                                                                                                                                   | 1978      | 3540089128 | 481-1-B    | 3403 |
| The medusae of the British Isles : anthomedusae, leptomedusae, limnemedusae, trachymedusae and narcomedusae                                                                                                                                | 1954      |            | 483-3-R    | 2554 |
| The Mendelian revolution : the emergence of hereditarian concepts in modern science and society / Peter J. Bowler                                                                                                                          | 1989      | 0485113759 | 460-2-B    | 1212 |
| The microtometist's vade-mecum : a handbook of methods of microscopic anatomy / by Arthur Bolles Lee                                                                                                                                       | 1921      |            | 460-72-L   | 1633 |
| The migrations of animals from sea to land / by A.S. Pearse                                                                                                                                                                                | 1936      |            | 467--P     | 1925 |

| The Second Asian Fisheries Forum : proceedings of The Second Asian Fisheries Forum, Tokyo, Japan, 17-22 April 1989 / edited by Rejiro Hirano, Isao Hanyu                                 | 1990      | 9711022796 | 662—H      | 254  |
| The selfish gene / Richard Dawkins : with a pref. by Anaïs Nin                                                                                                                           | 1978 1976 | 0195200004 | 467—D      | 4339 |
| The semantic theory of evolution / Marcello Barbieri : with a foreword by René Thom                                                                                                      | 1985      | 3718602431 | 467-5-B    | 4234 |
| The sessile barnacles (Cirripedia) contained in the collections of the U. S. National Museum : including a monograph of the American species / by Henry A. Pilsbry                       | 1916      |            | 485-3-内海文庫 | 4506 |
| The shallow-water octocorallia of the West Indian region : a manual for marine biologists / Frederick M. Bayer                                                                           | 1961      |            | 483-36-B   | 2576 |
| The Shore environment / edited by J. H. Price, D. E. G. Irvine, and W. F. Farnham                                                                                                        | 1980      | 0125647018 | 466-7-P    | 1872 |
| The Shore environment / edited by J. H. Price, D. E. G. Irvine, and W. F. Farnham                                                                                                        | 1980      | 0125647026 | 466-7-P    | 1873 |
| The silent world / by J.Y. Cousteau with Frédéric Dumas                                                                                                                                  | 1953      |            | ---        | 4320 |
| The Siphonophorae / Henry B. Bigelow                                                                                                                                                     | 1911      |            | 483-34-B   | 2562 |
| The Sipuncula : their systematics, biology, and evolution / Edward B. Cutler                                                                                                             | 1994      | 0801428432 | 484-4-C    | 372  |
| The solenogastres / by Harold Heath                                                                                                                                                      | 1911      |            | 484-2-H    | 2675 |
| The species problem : a symposium presented at the Atlanta Meeting of the American Association for the Advancement of Science, December 28-29, 1955 / edited by Ernst Mayr               | 1957      |            | 460-4-駒井文庫 | 1604 |
| The species problem : an introduction to the study of evolutionary divergence in natural populations / by G.C. Robson                                                                    | 1928      |            | 467-5-駒井文庫 | 3982 |
| The spider crabs of America / by Mary J. Rathbun                                                                                                                                         | 1925      |            | 485-3-R    | 2948 |
| The spirit of system : Lamarck and evolutionary biology : now with "Lamarck in 1995" / Richard W. Burkhardt, Jr                                                                          | 1995      | 067483318X | 460-22-B   | 4229 |
| The sponges of the west-central Pacific / by M.W. de Laubenfels                                                                                                                          | 1954      |            | 483-2-時岡文庫 | 5019 |
| The stock concept in Pacific salmon / edited by Peter A. Larkin                                                                                                                          | 1972      |            | 664-61-Si  | 3345 |
| The strategy of life : teleology and mechanics in nineteenth-century German biology / Timothy Lenoir                                                                                     | 1989      | 0226471837 | 460-2-L    | 4162 |
| The structure and reproduction of the Algae / by F.E. Fritsch                                                                                                                            | 1952      |            | 471—F      | 2028 |
| The structure and reproduction of the Algae / by F.E. Fritsch                                                                                                                            | 1956      |            | 471—F      | 2027 |
| The struggle for existence / by G. F. Gause                                                                                                                                              | 1964      |            | 461-4-G    | 4187 |
| The succession of life through geological time / by Kenneth P. Oakley and Helen M. Muir-Wood                                                                                             | 1959      |            | 457—O      | 4257 |
| The systematics of sympatric species in West Indian spatangoids : a revision of the genera Brissopsis, Plethotaenia, Paleopneustes, and Saviniaster / by Richard H. Chesher              | 1968      |            | 484-87-C   | 2835 |
| The taxonomy, morphology and ecology of recent Ostracoda / edited by John W. Neale                                                                                                       | 1969      | 0050017942 | 485-3-N    | 2939 |
| The teratology of fishes / by James F. Gemmill                                                                                                                                           | 1912      |            | 487-51-G   | 3090 |
| The Tethys : her paleogeography and paleobiogeography from Paleozoic to Mesozoic / edited by K. Nakazawa and J.M. Dickens                                                                | 1985      | 4486008774 | 457—N      | 4052 |
| The theory of evolution / J. Maynard Smith                                                                                                                                               | 1958      |            | 467-5-駒井文庫 | 3997 |
| The theory of island biogeography / Robert H. MacArthur and Edward O. Wilson                                                                                                             | 1967      |            | 462—Ma     | 1646 |
| The triumph of the Darwinian method / Michael T. Ghiselin                                                                                                                                | 1972      | 0520022475 | 467—G      | 3431 |
| The triumph of the embryo / Lewis Wolpert : with illustrations drawn by Debra Skinner                                                                                                    | 1991      | 0198542437 | 481-2-W    | 1079 |
| The Tunicata with an account of the British species                                                                                                                                      | 1950      |            | 484-94-B   | 2871 |
| The Ulothricaceae and Chaetophoraceae of the United States / by Tracy Elliot Hazen                                                                                                       | 1902      |            | 476-2-H    | 2176 |
| The underwater guide to ... Marine life / Carleton Ray & Elgin Ciampi                                                                                                                    | 1956      |            | 466-01-R   | 1700 |
| The uniqueness of the individual / by P. B. Medawar                                                                                                                                      | 1957      |            | 460-4-駒井文庫 | 1605 |
| The uses of echo sounding for fishermen / by D.H. Cushing                                                                                                                                | 1963      |            | 662-3-C    | 3302 |
| The variation of animals in nature / by G. C. Robson and O. W. Richards                                                                                                                  | 1936      |            | 467-4-駒井文庫 | 3976 |
| The variations and ecological distribution of the snails of the genus Io / Chas C. Adams                                                                                                 |           |            |            |      |
| The turquoise : a study of its history, mineralogy, geology, ethnology, archaeology, mythology, folklore, and technology / by Joseph E. Pogue                                            | 1915      |            | 484-26-A   | 2740 |
| The vertebrate body / Alfred Sherwood Romer                                                                                                                                              | 1970      | 0721676677 | 487—R      | 4018 |
| The vertebrate body : shorter version / Alfred Sherwood Romer, Thomas S. Parsons                                                                                                         | 1978      | 0721676820 | 487—R      | 4019 |
| The water relations of plants : a symposium of The British Ecological Society, London, 5-8 April 1961 / edited by A.J. Rutter, F.H. Whitehead                                            | 1963      |            | 468-08-B   | 1965 |
| The world of plankton / by Alister C. Hardy                                                                                                                                              | 1956      |            | 466-68-H   | 1839 |
| The zoology of East Greenland : marine Lamellibranchiata / by W. K. Ockelmann                                                                                                            | 1958      |            | 484-24-O   | 2729 |
| Theorie de l'évolution parallèle : les ancêtres des Cétacés n'étaient pas des vertébrés terrestres mais des vertébrés marins / J.R. Laenen                                               | 19—       |            | 467-5-L    | 1929 |
| Theory of population genetics and evolutionary ecology : an introduction / Jonathan Roughgarden                                                                                          | 1979      | 0029488516 | 468—R      | 3404 |
| This is biology : the science of the living world / Ernst Mayr                                                                                                                           | 1997      | 067488468X | 467—M      | 1095 |
| This living ocean : 海洋生物の世界 / 益田一著  This living ocean : カイヨウ セイブツ ノ セカイ                                                                                                                  | 1996      | 448601393X | 468—M      | 5153 |
| Tidal seas / narrated by David Attenborough                                                                                                                                              | 2006      |            | ---        | 4426 |
| Tiergeographie des Meeres / von Sven Ekman                                                                                                                                               | 1935      |            | 466-6-E    | 1791 |
| Time frames : the evolution of punctuated equilibria / Niles Eldredge                                                                                                                    | 1989      | 0691024359 | ---        | 4336 |
| Time's arrow, time's cycle : myth and metaphor in the discovery of geological time / Stephen Jay Gould                                                                                   | 1988      | 0140228195 | ---        | 4340 |
| Tissue respiration in invertebrates / [by] Dorothy E. Bliss [and] Dorothy M. Skinner                                                                                                     | 1963      |            | 481-33-B   | 2372 |
| Toldkasserer Karl Pettersen : en biografisk skisse med portræt / af M. Foslie                                                                                                            | 1890      |            | 205—井狩文庫   | 5377 |
| Toward a new philosophy of biology : observations of an evolutionist / Ernst Mayr                                                                                                        | 1988      | 0674896661 | 461-1-M    | 4243 |
| Towards stability in the names of animals : history of the International Commission on Zoological Nomenclature, 1895-1995 / R. V. Melville                                               | 1995      | 0853010056 | 480-3-M    | 1170 |
| Toxicity test methods / edited by Christian Blaise and Jean-François Féraud                                                                                                              | 2005      | 140203119X | 466-9-B    | 3581 |
| Toxicology of aquatic pollution : physiological, cellular and molecular approaches / edited by E.W. Taylor                                                                               | 1996      | 0521455243 | 466-9-T    | 858  |
| Trace fossils and problematica / Walter Häntzschel                                                                                                                                       | 19551975  | 0813730279 | 457-08-M   | 1587 |
| Trace metal concentrations in marine organisms / Ronald Eisler                                                                                                                           | 1981      | 0080259758 | 466-9-E    | 570  |
| Traité des diatomées : contenant des notions sur la structure, la vie, la récolte, la culture et la préparation des diatomées ... / par Henri van Heurck                                 | 1963      |            | 474-57-V   | 2110 |
| Transformed cladistics, taxonomy, and evolution / N.R. Scott-Ram                                                                                                                         | 1990      | 0521340861 | 467-61-S   | 1107 |
| Transport, respiration and excretion : comparative and environmental aspects / volume editor, Jean-Paul Truchot, Brahim Lahlou                                                           | 1990      |            | 464—K      | 307  |
| Treasures of the tropic seas                                                                                                                                                             | 1986      | 0816015902 | 466-6-C    | 522  |
| Treatise on marine ecology and paleoecology                                                                                                                                              | 1957      |            | 466-8-Tr   | 1902 |
